Mr T V Mohandas Pai, Chairman, Manipal Global Education Services Pvt Ltd

Quality has been the most important attribute and quality has been the most important thing in this journey we have had because without quality you don't get trust, without quality you don't get consistency and without quality you have no brand equity. Dr. Juran epitomizes all that is good in quality standards. So today I receive this award in all humility and I want to pay my tribute to Dr. Juran for putting quality at the core of all business activities throughout his long career.

-Mr. T V Mohandas Pai
Chairman, Manipal Global Education Services Pvt. Ltd.

The impact that organizations in education and health care make in the society is great. Let me thank IMC RBNQA for the quality with which they have been doing this work. They have standards, they have a process which is transparent, well known to everybody as a process that goes into several months of activity. And when somebody gets this award they feel they have been benchmarked with the best.
